WRITE BRAIN

ART IS A UNIVERSAL LANGUAGE

Your students can write and share their stories aloud in their native language first, which empowers them and supports their development!

STUDENTS CAN WRITE IN ANY LANGUAGE!

Writing	Listening	Reading	Speaking
Effective storytelling in response to visual prompt	Capable of summarizing and drawing inferences	Comprehend concrete and abstract language	Employ complex vocabulary and syntax
Confident self-expression using English	Comprehend explicit and implicit information	Clear understanding of main ideas and details	Capable use of abstract and content-based vocabulary

CASE STUDY WITH 2500+ EL STUDENTS

English Learner students in Santa Ana, California participated in the WRiTE BRAiN BOOKS program during their 10-week summer session aimed at preventing summer learning loss. Administrative Staff reported that the level of student engagement and attendance for summer programming was at its highest during the WRiTE BRAiN implementation.

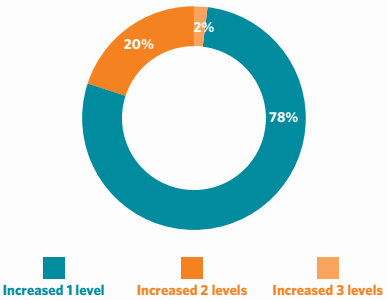

Of the **2,561 students**, who had both a pre- and post-assessment score:

- 96% experienced NO LEARNING LOSS
- 45% experienced a LEARNING GAIN

Of the **1,145 students** who experienced a learning gain: (rubric is 1 to 4 measurement)

- 78% increased by 1 level
- 20% increased by 2 levels
- 2% increased by 3 levels

TESTIMONIALS

"The WRiTE BRAiN program not only engages our students, but also our staff, to think out of the box and to make learning fun. The lesson plans and activities are offered at their fingertips to ensure that lessons are accessible and engaging. Our instructors are able to see the vision and buy into it, therefore offering our students a remarkable experience."

Minerva Hernandez • Educator • Northside ISD, San Antonio, TX

"Focus in our after school program has always been academic enrichment. We've been fortunate enough to bring WRiTE BRAiN, which really encompasses not only our school board's focus but also the focus of expanded learning programs in California. The great thing about the program is that it embeds and focuses on 21st-century learning. Kids are problem-solving and using strategies to make decisions as a group."

Jennifer Cisneros • Programs Director • SAUSD Extended Learning Engage 360°, CA

"With WRiTE BRAiN, my newcomer EL students were able to write in the language of their choice, which made them feel valued. The program allowed me to adapt to all students' needs because it scaffolded the work and provided so many options for differentiation. Student confidence was raised and their reading comprehension improved. Summer retention is a challenge and this program motivated the students to come to class. They were even more engaged because they could see the value in what they were making!"

Maritza Olguin • Educator • Santa Maria Joint Union High School District CA

"As an educator of English Learners, I found the lesson plans, scaffolded processes, strategies and results-driven structure of the WRiTE BRAiN program highly motivating for me personally. If as the teacher I am not inspired by the programs I'm implementing, my students won't be either. That's just common sense. I did this program as it's designed to be done. It greatly increased my best-practices, students were highly engaged and motivated, and I will carry these new practices into my others areas of instruction."

Jennifer Garza • Educator • Morales Elementary • Pasadena ISD, TX
